NEW ORLEANS, La.

Tapping the Lake.

Of what avail would the tapping of Lake Tahoe be to the ranchers of Washoe valley. So far as can be ascertained it is the intention of those interested in the scheme to carry the waters to the Carson side and use it more particularly for the purpose of aiding the quartz mills located along that stream. If any action is ever taken in this matter the agricultural men, as well as the mill men, should receive some benefit from it. The miner should be encouraged in every particular, but not to that extent that will result in injury to other growing industries in this State. True, the mills along the Carson river require water and everything should be considered for their welfare, but at the same time it must be remembered that water is used for other industries. If this project is to become an individual enterprise some provisions should be incorporated in the bill that gives them the franchise, whereby an understanding should exist as to the disposal of the amount of water taken from the mountain reservoir, and also to the amount that is to be devoted to mining and agricultural purposes, and how it shall be distributed so as to be of benefit to all interested parties.

TO THE DEMOCRATIC MEMBERS.

The Sentinel tenders the following advice to the Democratic members of the Legislature:

There are but few Democratic members of the present Legislature. But this small band has a duty to perform. It can stand for retrenchment in public expenditures and reform which promise to be promotive of the general welfare. Above all, it can stand against corporate power and greed. The things that the corporations will demand are just the things that should not be consummated. The measures which the corporation tools and lobbyists will solicit votes for are the things that should be defeated in the interest of the people. If you are prudent and conservative and patriotic, you can make a record for the Democratic party which the decent people of the State may appreciate in the future. The Republicans have a clear working majority in both houses and should assume the responsibility of all legislation. They are completely corrupted, ridden, and may be relied upon at all times to work in the interest of the classes against the masses. Let them furnish all of the votes to pass every bill of doubtful propriety. In a word, stand together manfully and aggressively for the right, but fail not to oppose to the death every scheme that has for its object the aggrandizement of the few at the expense of the many. Do this vigorously and consistently to the end, and millions will rise up and call you blessed.

What did Senator Ingalls mean when asked whether he would accept a cabinet position by replying: "I have a dollar in my pocket—do you think I would wish to trade it for a half a dollar?"

A. Mason has been appointed by the Board of Supervisors of Nevada county Assistant District Attorney, residing at Truckee for two years, at a salary of \$500 per annum.

The work of the Virginia Legislature is still at a standstill, owing to the delay in the organization of the Senate.

Railroad Surveyors.

The Eureka Sentinel, of last Saturday, says:

A corps of railroad surveyors, with J. Mathewson as chief, arrived here from Denver, Col., last Thursday, and will start out on Monday next on a surveying trip, commencing operations, as we are told, near the mouth of Pinto Canyon, in Fish Creek Valley. We guess they are employed by the Union Pacific Railroad Company. Some of them say they are in the employ of the C. B. & M. Co., but they tell different tales and are not satisfying anybody's curiosity. They are, however, a fine looking set of young men, and are going out for a winter's work, and when we learn the direction they are taking, and not until then, we may be able to put our readers in possession of reliable information. There have been several parties in the field within the past two years, and we learn that there will be another party here shortly. There is no question but Eastern Nevada is to receive the benefit of competing lines of railroad, but how soon this will occur is a question at best.

Eureka's Tax.

The Eureka Commissioners have levied the tax in that county for 1889, fixing it at \$3 50, a reduction of 30 cents on the \$100 from last year's levy.

Warren and El Laird, who were indicted by the Grand Jury a few days ago for cattle stealing, came in from Smoke Creek Sunday night and gave themselves up to the Sheriff and were locked up. They were arraigned yesterday afternoon and each entered the plea of not guilty, and the trial was set for February 25, at 10 o'clock a. m. Bail was placed at \$500 each in the indictment and at \$1,000 in the single indictment against Warren Laird.

The Board of Pardon was in session yesterday.

In the Assembly yesterday Thompson by leave introduced A. B. 17, an Act authorizing State Land Register to select 40,000 acres of land in Washoe county which may be offered for sale. Price to be ten cents per acre. Referred to Committee on Public Lands.

Also A. B. 18, an Act authorizing the County Commissioners of Washoe county to provide means for the storage of water in said county. Referred to Committee on Internal Improvements.

Supt. Evans says it is not true as stated in the Gazette that there was insufficient water at the fire yesterday morning. The difficulty can be easily explained, namely: A two-inch plug supplies the cistern in front of the Fulton place. The fire company coupled on this plug and stopped the flow of water into the cistern—as a result the cistern was pumped dry.

The Trustees of the University of the Pacific at San Jose have resolved that hereafter no student can matriculate from the university who uses tobacco in any form.

JOHN ING
MAJ. C. W. BOOTON, Auctioneer

OPERA HOUSE DRY GOODS STORE.

Valuable Information!

ARTICLE I. SECTION 1.—C. W. Booton, of the Opera House Dry Goods Store begs leave to call the attention of the public to bear in mind that he has put in a fine and well selected stock of BOOTS AND SHOES, made by the famous Nolan Bros., of San Francisco. The quality of this firm's make is too well known to need any comment; also my stock of READY MADE CLOTHING is second to none now in this city for quality and reasonable prices—good suits for men, from \$6.50 up; boys' suits, from \$2.50 up.

SECTION 2.—Any intelligent community, especially such as resides in Reno, is tired and disgusted long ago of reading advertisements quoting prices reduced from 50 and so to 20 and so. For instance, you see advertised to-day in the papers a corset reduced from \$1 to 55 cents per pair. Now, there must be something wrong to charge the ladies one dollar for a corset for some time, then reduce it to 55 cents per pair. I sell the same corset for 50 cents per pair in all sizes, and never asked any more for it.

ARTICLE I. SECTION 3.—Please note again, You see advertised frequently rhadames reduced from \$2 per yard to \$1.25 per yard—this is a repetition of Section 2, Article I. You will see there is a profit of 75 cents per yard taken off, which is an enormous profit, and as no one sells goods for cost, then at \$1.25 per yard there must be still a profit. Now, I sell good rhadames for \$1 per yard, which I suppose some merchants sell for \$2 per yard.

ARTICLE I. SECTION 4.—I sell an excellent quality of black silk for \$1 per yard. The ladies frequently tell me they paid \$2 per yard for the same article down street. I don't doubt it in the least, but the time has arrived when high prices will reign no longer in Reno on dry goods, boots and shoes and clothing. The amount of goods I turn out daily is sufficient guarantee that the people of Reno appreciate a ONE PRICE CASH STORE. All goods marked in plain figures.

ARTICLE II. In the morning papers may also be seen a description of a ladies' cloth 36 inches wide selling for 25 cents per yard. All ladies who are at all posted, know there is no such thing as a lady's cloth 36 inches wide. If perchance there may be such a thing in the category of dry goods out of respect to the ladies I would not advertise nor offer it for sale, as I know it would not give satisfaction. See my all-wool, fine quality of trecoat dress goods, in all shades, for 40 cents per yard. Sold everywhere for 75 cents per yard.

ARTICLE III. I sell a fine white merino vest for 35 cents each, all sizes, which is my regular price. I sell hemstitched, colored bordered handkerchiefs for 4 cents each, and make no blow about it like our cotemporary, who sells them for 5 cents each. I sell a nice black jersey for 50 cents, which is the regular price—it is not reduced from \$1 as some would have you believe. I sell a pure linen damask towel with fancy designs on center and fancy border. This towel is 40 inches long and I positively say that wherever it is kept in stock on this coast it is retailed for 50 cents. I sell it for 25 cents. If this towel is not as I advertise it I will charge nothing for it. Call and see it.

Respectfully,

C. W. BOOTON.

The Sentinel says the most exciting thing that occurred in Eureka during the past week was a poker game at the Empire saloon, that lasted 36 hours at the sitting, and a large amount of money changed hands.

RENOVATING.

Laying the Foundation for a Handsome Cafe.

The old and well known Wine House is now being renovated and refitted in the most artistic manner, and when the improvements are completed it will be the handsomest cafe in Reno. The interior of the place will be materially changed, a large and complete stock of the finest liquors and cigars will be at the command of patrons, and the establishment will be run on orderly principles, thereby making it a pleasant resort for those who desire to spend a social hour in such a place. A handsome billiard parlor will be conducted in connection with the saloon, club rooms, and in fact everything will be considered in the improvements that will be conducive to the quietude and welfare of those who frequent the cafe. Both the proprietors are well known. Spiro Francovich is an old and experienced mixologist who has been contributing to the wants of the inner man of Reno for several years, and fully understands just what beverage reaches the soul of the Riverside man. John Gregory, the well known drummer, Spiro's partner, requires no pen picture. His presence will lend strength to the firm and also patronage. The new cafe will be opened within the next ten days, when Spiro will be happy to welcome all his old time friends. A gala time is in store for those who make their presence known on that night. The Journal wishes the new firm success.

A Fire Yesterday.

Yesterday morning about 6 o'clock an alarm of fire was sounded and it was soon discovered that the residence of J. M. Fulton, on the corner of Chestnut and Fourth streets, was enveloped in flames. It has been Mr. Fulton's custom to about 5 o'clock in the morning, build two fires, and retire again until the house was warm. Yesterday morning, he arose as usual, built two fires and sought his bed. About 6 o'clock H. Lenderman, who was on his way to the depot, discovered the fire and gave the alarm. The hose cart was promptly on the ground having reached there before the steamer and the boys went to work in earnest and did good execution until the water gave out. About this time the steamer put in an appearance and just as the devastating element was under full control the water failed again. The flames seemed to be confined to the roof, thereby giving the fire ladders and others an opportunity to save all the furniture with the exception of that in the kitchen. Two of the fire boys came very near meeting with serious injury from a falling chimney. The fire evidently originated from a defective flue and if a wind had been prevailing at the time nothing could have saved the body of the structure. Mr. Fulton, luckily, had \$1,700 insurance on the house, and \$600 on the furniture.

Nevada Soil.

The best authority for the producing qualities of our sagebrush soil is its products. All that our light soil requires is attention, moisture and proper cultivation. On the ranch owned by Pete Milich, in Long Valley, Douglas county, every variety of vegetables can be produced and even the tomato plant thrives at an elevation of about 5,000 feet above the sea. His ranch comprises about 600 acres and in the neighborhood of 400 acres are under cultivation. This tract is devoted to the culture of grain and hay and enormous crops of both are annually reaped. Vegetables that are familiar in the Middle Western States do well and take kindly to their Western sagebrush home. Even grapes, though the cultivation of this luscious fruit has not been engaged in extensively until now, in a profitable manner, showing conclusively that the cultivation of the wine producing grape will yield and pay in Nevada. He has only one acre planted in fruit trees but this will be increased. At present the trees are young and non-bearing but in a year or two will bend under the pressure of their juicy products. Pete says that he can raise anything on his ranch that is friendly to the Temperate zone and that the time will come when he will have one of the best orchards and general producing farms in the Silver State. Potatoes and indeed all the substantial vegetables are home in Nevada, and the time will come when the superiority of Nevada products will attract the eye of the home seeker and the battle born State will receive her pro rata of the western bound emigration.

Welcome Snow.

The atmosphere is now in a fine condition for a snow storm, and it will be fully appreciated if it comes. Stockmen, ranchers and miners depend on snow for prosperity during the Summer season, and the late pleasant weather has caused them considerable anxiety. It is now late in the season but there is still ample time for the annual winter water fall. All things equal, Nevada should show material improvement in her population and taxability properly during the present year.

THE BOARD OF AGRICULTURE.

\$25,000 Needed to Pay Off the Debt.

A meeting of the State Board of Agriculture was held yesterday. Present—President Winters and Directors Bailey, Marzen, Evans, Flint, Mulcahy, White and Powning.

The reports of the President and Secretary for 1888 were submitted.

On motion a resolution was unanimously adopted asking the Governor to request the Legislature to make an immediate appropriation of \$25,000 to enable the Board to complete the purchases of land and Pavilion made in 1887, and to pay for the improvements of 1888.

On motion a formal invitation by the Board to the State Officers and members of the Legislature to visit Reno at an early day and inspect the State property, under control of the State Board of Agriculture was adopted.

Directors Powning, Bailey, Marzen and Evans were appointed a committee to represent the society in matters of legislation.

Directors Evans, W. O. H. Martin and T. K. Hymers were appointed by the Board to solicit funds for the purpose of defraying expenses incurred in properly receiving and entertaining the Legislators and State officers who might become the guests of the Society.

Adjourned to meet at the call of the President.

Stud Horse Poker.

This game as originally conceived and generally played was much the same as straight poker, differing only in the fact that one of the cards out of the five required for a hand was "barred," or in other words dealt face downwards, and the only checks, or percentage, were a contribution on the part of the winner, and such contributions went for cards and drinks. It gradually merged into a banking game under the law, and it is now under the category of licensed gambling games. The original manner of dealing the game was legitimate and dealers did not enrich themselves unless they were fortunate enough to win, changing their money. Now the dealer under the present system can become rich without changing a penny.

A Tough Crowd.

Carson is filled with young men who are surely drifting to the bad. They seem to have no ambition above sparing and prize-fighting, and are only in their element when manipulating a set of boxing gloves. The trouble that took place there lately, which resulted in the death of Coronado, should be a warning to them, and inculcate in their minds that there is something in this world more honorable and more conducive to their welfare than "scrapping." They, as a general thing, are qualified naturally and by cultivation to do something that will reflect creditably upon them, but they don't seem to take this view of the matter.

Sheep Shipments.

Shipments of motion sheep to the Bay have been heavy this season. On last Friday 24 carloads went below and other large consignments will be transported this week. The supply of sheep suitable for mutton in this neighborhood is now limited, and if the demand for them keeps up they will all soon be sold. At present McKay and McCollough have 5,000 head, Kane and Evans 3,000, Van Buren 1,000, Jack O'Brien 1,800 and Wheeler about 2,200, making a total of 13,000. So far Wheeler and Kane have been the principal shippers. All these sheep are in good order and will command top prices.

Court Sessions.

Judge A. L. Fitzgerald has decided for the future to set regular dates for holding court in the different counties of his district, commencing on the first Monday in each month as follows: Eureka—March, July, and December; Humboldt—February, June and September; White Pine—May and November; Lincoln—April and October. The months of January and August will be devoted to any county where business may call him.

County Finances.

The quarterly reports of Auditor Williams and Treasurer Boyd, for the quarter ending Dec. 31, 1888, will be found elsewhere, and should be carefully read and studied by taxpayers.

RED MEN.

Re-Establishment of the Minnehaha Tribe No. 3 in Reno.

Last Saturday night quite a number of Virginia people could be seen on our streets and the cause of their coming here created considerable speculation until it was made known that they were here for the purpose of assisting in the establishment of a Lodge of Red Men.

Some years ago a tribe of Red Men existed here but for some reason it was discontinued and Saturday night the charter for the defunct tribe was resurrected, the new tribe taking the old name. Sixteen members were initiated into the mysteries of Indian life, officers installed and the tribe ready to commence active life. The officers were installed by J. A. Judasky, Grand Sachem for the State, assisted by the Grand officers of the Grand Lodge of the State. After the installation ceremony was over a request was spread with accompanying comments in the shape of beverages that were heartily indulged in by all present. The officers installed were J. P. Richardson, Prophet; P. H. Mulcahy, Sachem; E. C. Leeper, Senior Sagamore; S. W. Peek, Junior Sagamore; Fred Haggrman, Chief of Records; J. E. Bradshaw, Keeper of Wampum, and J. V. Peers, W. P. McLoughlin and John Fraser, Trustees. The tribe is composed of good material and all will take an interest in the future of the organization. The Virginia visitors departed for the upper levels on Sunday.

Great Tribulations.

Sunday's Carson Appeal relates this blood-curdling story:

When the members and attaches went down to the Controller's office yesterday to lay their hands on the mileage, per diem and stationary allowances, they were blandly informed by the Controller that the Governor had not yet signed the appropriation bill, and elsewhere they learned that he had gone to Virginia City.

Several of the attaches held an indignation meeting and passed joint concurrent impeachment resolutions, but afterwards it was ascertained that the fault lay somewhere in the House, and the bill had not been forwarded to the Governor in time.

Later in the day he returned and affixed his signature to the document, after which the excitement was allayed to such an extent that no one was killed for neglect of duty.

The next time the Treasury doors are fastened up by such an oversight there will be serious trouble.

Miss Addie Morton, of Carson, a student at the State University, dropped her purse in the cars while coming down from Carson Sunday evening. She did not miss it until she reached here. Conductor Joe McCormack found it and sent it to the University, not knowing where the owner could be found.

DON'T

Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.

Catarrh is disgusting. Pneumonia is dangerous. Consumption is death itself.

The breathing apparatus must be kept clear of all obstructions and offensive matter. Otherwise there is trouble ahead.

All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, can be delightfully and entirely cured by the use of Boech's German Syrup.

If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is, themselves." Bottle only 75 cents. Ask any druggist.

Syrup for Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children's Teething.

Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children's Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. (Ad. 21-law 1-1.)

Coal, Coal, Coal.

Pleasant Valley coal is the best and cheapest fuel in the market. 3 tons of P. V. coal equals five tons Rocky Mountain coal, by actual test. No slate or clinkers. One ton P. V. coal equals 3 cords common pine wood. Give it a trial and be convinced. Leave orders with or enquire of H. Sample, Depot Hotel or coal house, or at Neabys, or of Phil Alliger, the drayman.

SACRAMENTO, CAL.

THE OLD RELIABLE FURNITURE HOUSE OF John Breuner is well worthy of note, and we take pleasure in devoting to it due space and attention. Mr. Breuner has been engaged in this business for thirty-three years and conducts one of the largest business houses in California. He manufactures and deals in all kinds of furniture and bedding, and has established a most enviable celebrity for the excellence of the goods turned out by his house. He carries a very large stock, embracing all grades and kinds of furniture and quotes prices that defy competition. His goods are all first-class, made of the best material and first-class workmanship, and the people cannot find a more advantageous house to deal with. He carries a supply of photographs of all goods, which will be sent free of charges to any address, and by this method people at a distance can select goods at home as well as in person at his house, and may rest assured of being satisfactorily and fairly treated by him. This is a most convenient and pleasant method for those abroad, and we recommend a trial of it.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO!

Has 5,000 Population and is Growing Rapidly.

The Loveliest Town!

The Cleanest Town!

The Wealthiest Town!

The Healthiest Town!

RENO

Is Supported by the Richest

Farming Country of Nevada,

Northern California and

Southern Oregon.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

STATE OF NEVADA,
County of Washoe.
I, John B. Williams, County Auditor of said county, do hereby certify the foregoing to be a true and correct copy of the delinquent tax list for 1888, ordered by law to be published.
Witness my hand and official seal, at Reno, in said county, this 30th day of November, A. D. 1888.
J. B. WILLIAMS,
County Auditor.

A SUPERIOR EDUCATION AT HOME.

THE STATE UNIVERSITY,

OF NEVADA, LOCATED AT RENO, OF-
fers excellent opportunities to young men and young women who desire to obtain a good education at a reasonable cost.
This institution being a part of the public school system of the State, is free to all residents of Nevada.

Five Schools or Departments

Have been organized in the University.

1. The School of Mines and Mining Engineering.
2. The School of Agriculture.
3. The Normal School.
4. The Law Department.
5. The Academic Department.

The School of Mines and Mining Engineering.
